

DEDICATED LINKS IN PACIFIC ISLAND REGIONS

PEACESAT currently operates several dedicated links to various Pacific island regions in the PEACESAT network. Each PEACESAT earthstation that has been digitally upgraded has the capability of conducting video conferencing or Internet data at up to 128 Kbps.

Site	Capacity	Video	Data
American Samoa Power Authority (ASPA)	128 Kbps	X	X
College of the Marshall Islands (CMI)	128 Kbps	X	
Chuuk Education	128 Kbps	X	
Kosrae Department of Education	128 Kbps	X	
Majuro Emergency Operations Center (EOC)	64 Kbps		X
Palau Ministry of Education	128 Kbps	X	
Pohnpei Hospital	128 Kbps	X	
University of Guam (UOG)	128 Kbps	X	
Yap Special Education Enterprising Department (YapSEED)	128 Kbps	X	

In addition to the dedicated satellite connections via the GOES-7 satellite, PEACESAT also has several dedicated links to various Pacific island regions through commercial carriers or Internet Service Providers (ISPs). Made possible by various partnerships, as well as governmental grants and generous contribution from local entities, PEACESAT currently runs and operates over the following dedicated links from the Network Operations Center in PEACESAT Honolulu.

Site	Capacity	ISP/Carrier
American Samoa Department of Education E-Rate Center	T-1	Verizon/ASTCA
American Samoa Department of Education E-Rate Center	768 Kbps	Verizon/ASTCA
American Samoa Lyndon B. Johnson Hospital	384 Kbps	Verizon/ASTCA
Commonwealth of the Northern Mariana Islands Public School System Network Operations Center	T-1	Pacific Data Systems
Guam Department of Education Network Operations Center	T-1	Pacific Data Systems
